# A message from our president

Dear Partners,

I believe when we look back on the history of OneMessage.tv that 2023 will be considered an important milestone.

As we close in on our 5th year as a ministry, we have completed recording with every people group that we have worked with. That means every trip in this coming year will mark the beginning of a relationship with a new people group.

2023 is the year that God began to show us exciting results with every people group: baptisms, professions of faith, disciplined believers, and even impacting new church starts.

It is no coincidence that 2023 is also when you, our donors and partners, began to step up your commitment to the OneMessage.tv vision. The gifts and resources shared by you and others this last year was far more than any previous year. But even more importantly, the number of donors who made a commitment to support us on a monthly basis more than doubled last year over 2022!

That means that as we enter this new year looking for a whole new slate of people groups and locations, we have the confidence to know that through you, God will provide the way to make each new relationship possible.

In the years ahead, when we look back on 2023, I believe we will see how it was a launching point for many other great things.

Thank you for your role in all that happened at OneMessage.tv last year, and everything that will happen going forward.

# About OneMessage.tv

---

**Our mission is to reach the heart of every oral learner with the Word of God!**

Nearly 80% of people in the world don't read well enough to understand the Bible, even if they have one in their language. OneMessage.tv partners with missionaries and pastors around the world to produce a library of 20 video Bible stories, from Creation through the Resurrection, using native speakers and indigenous actors, so oral learners can see and hear the gospel in their heart language.

## Outcome

---

### RENDILLE – KENYA

All 20 videos have been recorded, 10 videos still need to be edited. These videos will also be used with different audio to reach a second language group in the region.

- In June, some of the videos were shown in the village of Lolukushu. 25 adults and many children received Jesus after watching the videos.

---

### SPANISH – COLOMBIA

All 20 videos have been recorded, edited, and delivered.

- There was a transition with our mission partners in 2023. But new partners have arrived, and we hope we can resume progress with this people group.

---

### CHAMÍ – COLOMBIA

All 20 videos have been recorded. 13 stories still need to be translated into the Chamí language.

- Our mission partners were reassigned to another country, but new partners have arrived, and we hope to continue the difficult translation process for this people group.

# What to expect *in 2024*

---

As always, the new year brings new opportunities. And that means all new projects, new people groups, and new languages.

We start 2024 off with a trip to Thailand in February to work with the Isan people in the northeast part of the country near communist Laos and Cambodia. This project has the potential of reaching as many as 17 million people with God's Word!

We are also in discussions with some potential new mission partners, as well as some that we've already worked with, looking at opportunities in southern Mexico, Ethiopia, Peru, and Brazil, as well as some new unreached tribes in Kenya.

# We'd like to thank all our donors for their *generous support*

Samburu – Kenya

We have said it so many times...

GOers can't GO if they're not SENT. And it's the faithful and generous gifts from individuals like you that make it possible for us to GO and produce video Bible stories in multiple languages to reach unreached oral learners around the world.

Whether you give \$20 or \$20,000, every gift makes an impact in changing lives. There is no way we could do this without you!

**THANK YOU** for being a **SENDER!**
